

Workflow: a sequence of steps in a process...

Continuous Flow

Sakura Finetek cordially invites you to participate in an interactive professional histology workshop presenting the benefits of continuous work flow and a symposium from experienced professionals. You will move in the flow from one step to another in a state-of-the-art automated histology laboratory setting. In this unique educational opportunity, you can experience first-hand how implementing continuous workflow, utilizing the latest technology, can benefit your laboratory and your team.

"We can't solve problems by using the same kind of thinking we used when we created them."

- Albert Einstein

—Details—

You will earn 3 full CEU credits for participating in the educational symposia.

When: March 14, 2012

Where: Marriott Downtown, Key Center
127 Public Square
Cleveland, Ohio 44114
Salons: F-G

Time: 8:30 am to 4:00 pm

Due to overwhelming demand in previous workshops, space is limited. Please reserve your spot early.

—RSVP—

Please submit your registration as soon as possible online:
